Believe Achieve Succeed

### Participation in “Excursions” Local To School

Sometimes there are occasions when it is educationally desirable for children to participate in activities local to school but outside the school grounds. Examples of such activities are traffic counts, studies of local housing and plant-life, visits to St Peter’s Church and so on.

It makes life considerably easier for us if we have previous permission from parents and/or guardians to take children off the premises in such circumstances, and we therefore ask you to sign the attached form and return it to school. You can hand it to the class teacher or to the office.
