

Dear Year 4,

Have you had a good week? We hope so. It's been a bit wet, which is good for the garden, but have you managed to get outdoors? Have you found any food chains in your garden? Which challenges have you accomplished? Thank you to those who have sent through photographs of your dragons and other pictures and to those that haven't please do! Please make sure you vote for your favourite story in the Surrey Library Challenge. Please refer to the email that was sent by the school office last week.

We have really enjoyed hearing from some of you and seeing photographs and videos of things you have been doing.

Last week we set you some problems on Mathletics. You can find these under "Explore" which is the tab next to "Learn". We can see how you have worked the problems out, so make sure you show your methods. If you are finding these tricky you can message us through Mathletics.

Have you been reading some good books? We would love to share recommended reads so that we can try a range of authors whilst we are home learning. Please email any book reviews or titles you have read.

Remember you now can email us any questions or tell us about what you have been doing. It would be lovely to hear from you.

Stay safe, keep healthy and have fun learning!

Mrs Simpson and Mrs Bench xx

*I can grow as big as you but yet I weigh nothing. What am I?*

Last week's riddle : What can travel around the world while staying in a corner? A stamp!
