Science Challenges

1. How many trees can you name in your local environment? You can use the attached **Leaf Identification sheet** to help you. This would help you with one of St Peter's Challenges!
2. If you haven't done this yet, why not try to make a bug hotel to encourage some visitors to your garden. <https://www.rspb.org.uk/get-involved/activities/give-nature-a-home-in-your-garden/garden-activities/build-a-bug-hotel/>
If you do not have a garden, then have a hunt for some bugs when you next go out for a walk. Where do you think they like to hide? If you look under any stones or logs, make sure you put them back.

Foundation Challenge

Can you find out about an animal you like?
What does it eat? Where does it live? What is its body like? How does it move? What interesting facts can you find out about your animal?
You might find these websites useful.

Maybe you could write an information sheet or booklet about your animal. You could use the attached animal factfile sheet to help you.

Creative Challenge

Can you make a collage of the first letter of your name out of coloured paper, bits of wrapping paper, newspaper, magazines, buttons, leaves, flowers etc?

Hint: Start by drawing an outline in pencil to make it easier.
Maybe you could take a photo of it and share it with us.

We would love to hear how you are all doing so do send us photos of learning you are proud of.

Please keep thanking your grown-ups for all their help and support. Enjoy all the challenges and keep being active, having fun and staying safe.

We are missing you and thinking of you all.

With love from Mrs Williams and Mrs Usher xx
