

Year 6 Music Home Learning

Idea one: This ppt is already on the year 6 page

Lion King PowerPoint - sing along to the YouTube links of the Lion King West End show

Idea two:

Doctor Who – the composers behind this great music

Watch this 6 minute video – it's really interesting. Look how technology has developed:

<https://www.bbc.co.uk/teach/ten-pieces/classical-music-ks2-delia-derbyshire-doctor-who-theme/zbfvt39>

When you get to secondary school you will have the opportunity to manipulate sounds using electronic equipment. Have you got an instrument at home you could compose a tune on? Can you find other things to make sounds with and add to a recording? Maybe you have an app or program you could use eg Garageband. If you compose something you are proud of then record it and send it to me on

head@stpeters-farnham.surrey.sch.uk

Idea three:

Stravinsky – Firebird suite

Watch this 5 minute video – it explains the history of the piece:

<https://www.bbc.co.uk/teach/ten-pieces/classical-music-primary-igor-stravinsky-firebird-ks2/zbsf3k7>

Then play the second video below it of the orchestra version – it's only 3 minutes.

Read the two short paragraphs about Stravinsky next to the video.

What instruments can you hear?

Did you enjoy it? What did you like? What didn't you like?

Can you imagine the bird rising from the flames?

Did you know that the famous band Yes played the Firebird at the opening of their first live album? You tube it if you would like to listen to it. Most bands have been influenced by Classical music.

Stravinsky is one of my favourite composers. If you like his music you might like to listen to these on YouTube:

- The Rite of Spring
- Petrushka - ballet
