

# Bonjour tout le monde!

You all know this book en anglais. Please listen to me read the story (without laughing!) and see how many words you can recognise – days of the week – names of food?

Now open the booklet on *Chenille qui fait des trous* and draw the items into the storyboard to create your own version of the story in French.

## LA CHENILLE QUI FAIT DES TROUS

DECOUVERTE DU MONDE

### Quand la chenille devient papillon...

En classe, nous avons élevés des papillons, voici ce que nous avons observé :

The diagram illustrates the life cycle of a butterfly. It shows four stages: 1. An egg (labeled "L'oeuf") on a leaf. 2. A caterpillar (labeled "La chenille") crawling on a leaf. 3. A chrysalis (labeled "La chrysalide / le cocon") hanging down. 4. An adult butterfly (labeled "Le papillon"). Arrows indicate the progression from egg to caterpillar, and from caterpillar to chrysalis, and finally from chrysalis to butterfly.
