

COMPARE AND CONTRAST GRID

Compare the process of reproduction in a butterfly and a stick insect? How is the process similar? How is it different?

Comparing reproduction in butterflies and stick insects		
Butterflies	Where they live	Stick insects
	How they reproduce	
	Where they lay their eggs	
	What their eggs are like	
	How long the eggs take to develop	
	What comes out of the egg	
	How they change as they grow	
	When metamorphosis happens
