

What can we learn about Muslim worship by looking at a Mosque?

I hope you enjoyed learning about the 5 Pillars of Islam and have begun finding out what a Mosque can tell you about how Muslim's worship. Here is what you should have done so far.

Go through the PPT, watch the video, and make an information page to explain each of the different features of a Mosque eg. Minaret, Mihrab, dome. Use this interactive Mosque on the BBC website to help you. <https://www.bbc.co.uk/teach/inside-the-mosque-what-do-you-need-to-know/zr3f2sg#:~:text=The%20simplest%20mosque%20would%20be,feature%20has%20its%20own%20significance.>

Send your information to me in an email on Purple Mash, or post a photo of your learning on your Purple Mash RE Blog.

Now I have your final challenge: I would like you to make a model of a Mosque using all the information you collected last week, and pictures you have seen or can find on the internet. Your model can be any size, but needs to be labelled to show the parts which are used during prayer and worship. You could find out how Mosques are decorated (remembering that Muslims do not have any representations of God), and perhaps you could do a "cut away", to show what is going on inside. Enjoy this challenge and bring your model into school when you come in for the last week of term. I look forward to seeing you and your models!
