

Dear Year 5,

Well, we have made it to the last week of home learning! We can't wait to see all of your smiling faces back in school next week. Hopefully, you are all looking forward to coming back too.

Next week:

**Maths** – Please complete the White Rose Home learning activities as well as the Mathematics homework.

**English** – Please complete the Hamilton Trust home learning activities and practice your spellings on Readwriter.

**Science** – Think about the statements on the sheet and see if you can put each one into the correct position on the Venn diagram. Some of the statements will be simple to place, but others may be harder. Try and explain to another family member why you have chosen to put a statement in a particular place. You might need to look at books or other sources of information to help you decide.

**Geography** – Read through the power point slides. Use Worksheet 1B to draw a diagram of the water cycle and then write an explanation of how it works. Remember to use the technical vocabulary listed on the sheet.

**Art** – In this lesson you will learn about the French artist Henri Matisse and create a collage inspired by his work.

**R.E.** – What have you found out about a mosque? Have you had a go at making a model of one? Please bring them into school next week so that we can have a look at your work.

**D.T.** – Have any of you managed to make a moving toy using a cam? If you have you could also bring them into school to show us.

We hope that you enjoy your last week of home learning and we are looking forward to welcoming you all back into school on Monday 13<sup>th</sup> July.

Mrs Russell, Mrs Tuson and Mrs Bolton
