

Week 2 Geography Instructions

L.I. to find out about the location and countries of South America.

Have a look through Slideshow 1. What do you already know about South America? Has anyone ever been? I am lucky enough to have spent 12 weeks in South America and have visited Peru, Bolivia, Ecuador and Venezuela – so there is a clue to 4 of the countries.....!

On worksheet 1B (or if you like a challenge, worksheet 1C) can you label the countries of South America. There is a map to help you or you can use an atlas if you have one. Also, please have a go at the anagrams on worksheet 1D. These are good fun!

The answers are included – but its no fun if you look!!
