

Instruction for Geography

Year 6 Week 3- Tuesday

L.I. To find out about the climate of South America.

Start by asking children to explain their learning from last week. How many countries of South America can they remember? What else can they tell you about them?

Discuss the slides on the PowerPoint.

Activity-Provide children with the climate zone map, World map and Worksheet 2B- all in work pack. Children answer the questions on sheet 2B.

Check answers using the answers

To extend learning further complete sheet 2C

Children then discuss which of the countries in South America has a climate most like our climate. They can write a paragraph explaining their answer and why they think that country has a similar climate to ours.
