

# Year 4 French Alps

## Ideas of materials you can use—

Mud, string, cardboard, lego, leaves, pebbles, boxes, flour

Design and create your own French Alps Ski Resort. You need to think of all the layers from the base of the mountain all the way to the Peak. You can do this activity **outside** using mud, sand, natural materials and anything else you may find or you can create it **indoors** using any objects and materials that will work for your design.

Peaks

Sommets

Ski slopes

Piste de ski

Snow

La neige

Lakes

Les Lacs

Foot paths

Pied tractoires

Trees

Les arbres

## Extension -

Learn your French direction either in your house or in your garden.

marcher 5 pas en avant—walk 5 steps forward  
du salon à la cuisine—from the lounge to the kitchen

Allez tout droit—go straight

tournez à gauche—turn left

tournez à droite - turn right

de l'étang à la porte - from the pond to the gate

Just a few to get you started!

Once you have designed and created your resort label all the different parts using English and French, I have given you a few to get started.

Good Luck, get dirty if you can!

Now take a photograph of your creation and email it to me.
