

Year 1 Bird feeder

What you will need
(Watch the video)

Cheerio bird feeder
(if you don't have the ingredients
for the other) wire, pipe cleaners
or string with cheerio's thread.

Activity

Watch the video and follow the instructions to create your bird feed, you can then place onto a bird table, log or fence. You can stuff an orange/ lemon skin with a piece of sting attached, you can also stuff a cored apple.

Bird Watch survey

Use your bird spotter sheet to count how many different kind of birds you can spot in your garden, or through your window. Don't forget to place your bird food out before you start to spot the birds.

Trees

Can you find 3 different trees on your daily walk collect the leaves on the ground below the tree.

Do a bark rubbing of all 3 trees (use wax crayons and a piece of paper)

Can you identify the trees you chose? Are they Oak? Birch? Hazel? When you get home you can do a leaf rubbing? Which side of the leaf works best?

Extension

Why not try placing a piece of tin foil over your leaf and smoothing over with your finger. Look at the image you have created.

Hope you have enjoyed your forest school session can't wait to see pictures of your bird and tree activities.
